SUMMARY

Motivated Computer Science graduate with a strong foundation in software development, object-oriented programming, and data structures. Seeking an entry-level role as a Software Developer or Associate Engineer to contribute technical expertise, collaborate in team environments, and grow within a dynamic software team.

TECHNICAL SKILLS

Programming Languages: Python, C#, SQL

Desktop Development: C#.NET, Windows Forms

Database Technologies: SQL Server GUI Development: Tkinter (Python)

Development Tools: Visual Studio, SQL Server Management Studio

Core Concepts: Object-Oriented Programming, Database Design, Software Development Life Cycle

EDUCATION

Bachelor of Science in Computer Science — **Dec 2021 – May 2025**

University of Engineering and Technology, Lahore

FCS (Pre-Engineering) — **Sep 2019 – July 2021**

Punjab Group of Colleges, Lahore

WORK EXPERIENCE

Computer Science Instructor — **Aug 2023 - Feb 2024**

- Taught ICS Part One & Two, covering programming fundamentals, data structures, algorithms, and software development methodologies.
- Assessed student progress through evaluations and provided targeted guidance for improvement.
- Mentored students in programming concepts and problem-solving techniques

PROJECTS

Library Management System

- Built a system to manage books, borrowers, and lending records.
- **Tech Used:** Python, SQL Server

To-Do List App

- Implemented a task management app allowing users to add, delete, save, and load tasks from a local file.
- **Tech Used:** Python, Tkinter

Gmail-like Desktop App

- Developed a Windows Forms application replicating Gmail's key features (send, receive, labels).
- **Tech Used:** C#.NET, SQL Server

Learning Management System

- Built a LMS desktop application for managing courses, assignments, and student data.
- **Tech Used:** C#.NET, SQL Server
